Workshop in Behavioral Public Economics

Over the past 15 years, **Rupert Sausgruber** and I have organized workshops in places like Copenhagen, Venice, Innsbruck and Vienna (in some of the years, we varied the title somewhat, to "Experimental Economics", "Public Organizations", or "Experimental Labor Economics"). In 2008, I held the usual workshop in addition to a (fairly large) conference on the same topic in Copenhagen. In 2010, we held no workshop because I organized the World Meetings of the Economic Science Association in Copenhagen (jointly with Erik Wengström and Marco Piovesan). Affiliations indicated after the name of the speaker refer to the year of the workshop.
