

## Workshop in Behavioral Public Economics

This workshop can look back on a proud tradition of more than ten years. I have organized most of these workshops jointly with Rupert Sausgruber in places like Copenhagen, Venice, Innsbruck and Vienna (in some of the years, we varied the title somewhat, to “Experimental Economics”, “Public Organizations”, or “Experimental Labor Economics”). In 2008, I held the usual workshop in addition to a (fairly large) conference on the same topic. In 2010, we held no workshop because I organized the World Meetings of the Economic Science Association in Copenhagen (jointly with Erik Wengström and Marco Piovesan). Affiliations indicated after the name of the speaker refer to the year of the workshop.
