

NHES - Special Issue

Economic aspects and societal decision making in hazards and risk management

Editor(s): S. Fuchs, M. Bründl, R. Bernknopf, and T. Glade

- The political economy of public participation in natural hazard decisions – a theoretical review and an exemplary case of the decision framework of Austrian hazard zone mapping** 25 Mar 2008
C. D. Gamper
Nat. Hazards Earth Syst. Sci., 8, 233-241, 2008
[Abstract](#) [Full Article](#) (PDF, 269 KB)
- Adapting water allocation management to drought scenarios** 02 Apr 2008
P. Giacomelli, A. Rossetti, and M. Brambilla
Nat. Hazards Earth Syst. Sci., 8, 293-302, 2008
[Abstract](#) [Full Article](#) (PDF, 421 KB)
- Are floods in part a form of land use externality?** 27 May 2008
W. Dorner, M. Porter, and R. Metzka
Nat. Hazards Earth Syst. Sci., 8, 523-532, 2008
[Abstract](#) [Full Article](#) (PDF, 3205 KB)
- Alternative solutions for public and private catastrophe funding in Austria** 01 Jul 2008
M. Gruber
Nat. Hazards Earth Syst. Sci., 8, 603-616, 2008
[Abstract](#) [Full Article](#) (PDF, 2067 KB)
- Institutions and the losses from natural disasters** 01 Jul 2008
P. A. Raschky
Nat. Hazards Earth Syst. Sci., 8, 627-634, 2008
[Abstract](#) [Full Article](#) (PDF, 309 KB)
- Significance of "high probability/low damage" versus "low probability/high damage" flood events** 30 Jun 2009
B. Merz, F. Elmer, and A. H. Thieken
Nat. Hazards Earth Syst. Sci., 9, 1033-1046, 2009
[Abstract](#) [Full Article](#) (PDF, 1250 KB)
